Construction Management: Cost Estimation, Site Supervision
Microsoft Office: Word, PowerPoint, Excel
Soft Skills: Leadership, Proactive, Collaborative, Communication, Self-starter, Attention to detail

PROFESSIONAL EXPERIENCE

City of Mississauga October 2024-December 2024

Long Term Planning Placement, Parks and Culture Planning

- Managed and monitored park facilities, including planning and utilization of spaces to maximize community benefits.
- Collected and analyzed data to identify patterns in park usage and determine factors influencing facility utilization.
- Presented findings and insights to the Parks and Culture Planning team, contributing to strategic planning for future park developments.
- Collaborated with planning teams to develop designs for park upgrades and new facilities.
- Coordinated maintenance schedules and ensured compliance with municipal standards for parks and recreational spaces.
- Prepared technical reports and proposals for facility improvements and development and engaged with the team members to address concerns and promote effective park usage.
- Conducted on-site observations during weekdays, weekends, and evenings, ensuring comprehensive data coverage across different time frames.
- Attended bi-weekly in-person meetings to discuss progress and strategies with the planning team.

Pneumatic Development Pvt. Ltd April 2021-March 2023

Interior Designer / Design Consultant

- Designed and developed comprehensive interior layouts 2D, 3D and renderings for both residential and commercial spaces, ensuring functionality, aesthetic appeal, and client satisfaction.
- Worked on various aspects of interior construction, including the design and installation of custom furniture, flooring, and kitchen spaces, and exterior constructions tailoring each project to meet the specific needs of the client.
- Managed the renovation process for existing properties, overseeing design alterations and ensuring that all updates adhered to structural requirements and client expectations.
- Led the estimation process for all interior design and construction projects, accurately assessing the costs of materials, labor, and time required for completion.
- Supervised site activities, ensuring that all construction and renovation work was carried out according to design specifications, while maintaining quality control and adhering to project timelines.
- Collaborated with clients to determine their vision and needs, then translated those ideas into practical, aesthetically pleasing design concepts.
- Coordinated with contractors and vendors to ensure that all necessary materials were sourced and delivered on time for smooth project execution.
- Ensured compliance with building codes, safety regulations, and quality standards during the execution of interior design projects.

Pneumatic Development Pvt. Ltd November 2020-March 2021

Design Assistant

- Assisted in the development of design concepts for both residential and commercial projects, helping to bring client visions to life through detailed sketches and digital renderings.
- Supported senior designers in the selection of materials, color schemes, and finishes, ensuring that all choices aligned with the overall project goals and client preferences.
- Managed the preparation of mood boards and design presentations, helping to communicate design ideas effectively to clients and team members.
- Conducted research on current design trends, materials, and products to provide innovative solutions and recommendations for upcoming projects.
- Assisted in the coordination of design project timelines, ensuring that deadlines were met, and all materials and resources were available for smooth project execution.
- Organized and maintained design files, ensuring that all documents, images, and project details were accurately stored and easy to access for the team.

- Collaborated with contractors and vendors to ensure that design specifications were clearly communicated and followed during the construction or installation process.
- Participated in site visits to assess project progress, ensuring that designs were being executed according to plan and addressing any issues or adjustments needed.
- Assisted in the preparation of cost estimates and budgets for design projects, ensuring that all expenses were accounted for and aligned with client expectations.
- Helped manage client communications, responding to queries, providing updates, and ensuring that their needs were met throughout the design process.

MAIN PROJECTS

- **Hotel Room Interior Design:** Spearheaded the design and execution of a boutique hotel interior with a modern wooden theme, featuring sleek, high-contrast elements and contemporary aesthetics. Designed guest rooms to achieve a balance between functionality and visual appeal. Integrated custom wooden furniture, textured finishes, and ambient lighting to create a warm and sophisticated atmosphere.
- **Residential Exterior and Interior Renovation:** Transformed an empty hall into a modern library, incorporating functional shelving, ambient lighting, and cozy seating arrangements. Redesigned exterior plastered walls with aesthetically pleasing wall cladding, wooden niches, and granite flooring accented with natural stone elements, creating a sophisticated and inviting facade.
- **Cafeteria Interior Design:** Designed an inviting cafe space with optimized seating arrangements, maximizing open areas to prevent congestion. Incorporated green grass walls and artificial grass flooring as per client requirements, alongside a small play area for children. Created rounded seating surrounded by tree-inspired installations to provide an aesthetically pleasing and relaxing environment.
- **Academic Project – Derry Side Green Park Redesign:** Redesigned Derry Side Green Park, transforming it into a modern sports park. Added dog leash-free zones to cater to the area's high population of dog owners, along with ample seating arrangements and strategically placed lighting for safety and accessibility. Reviewed by City of Mississauga, as design is a functional and inviting space, which resulted in winning first place in a competitive design competition.
